

SANTHOSHKUMAR T

B.Sc. Computer Science Graduate | Software Developer | Full Stack Developer

ssanthosh49077@gmail.com | +91 9342236003 | [LinkedIn](#)

PROFESSIONAL SUMMARY

To begin my career as a Java Full Stack Developer where I can apply my knowledge of Java, JSP, JDBC, MySQL, HTML, CSS, and JavaScript to develop reliable and user-friendly web applications. I am eager to strengthen my skills in Java-based technologies, contribute to real-world software projects, and grow as a professional software developer.

TECHNICAL SKILLS

Languages: JavaScript, Java,

Frontend: React.js, HTML, CSS

Backend: PHP

Databases: MySQL

Tools & Platforms: Git, GitHub

PROJECTS

Apartment Management System –

Dec 2025 – Apr 2026

Final Year Project | React.js, Node.js, Express.js, MongoDB

GitHub: github.com/ssanthosh49077-sys/apartment-management

- Built responsive React.js frontend with component-based architecture and role-based access control for 4 user types.
- Designed 15+ RESTful APIs using Node.js and Express.js with MongoDB for scalable data management.
- Integrated payment module and automated email notifications managing data for 50+ tenants.

Task Manager Application –

2024 – 2025

Pre-Final Year Project | JSP, MySQL

GitHub: github.com/ssanthosh49077-sys/TaskManager

- Developed a role-based Employee Task Management System using JSP, JDBC, MySQL, and Apache Tomcat.
- Implemented Admin and Employee login with session-based authentication.
- Built employee management, task assignment, task tracking, and progress update modules.
- Designed a responsive dashboard and performed CRUD operations using JDBC and MySQL.

Weather Prediction System –

2024

Mini Project | Python, Machine Learning, Streamlit

Live Demo: machinelearning5.streamlit.app

- Trained a machine learning classification model in Python for predicting weather patterns across multiple categories.
- Deployed as a publicly accessible live web app using Streamlit for real-time predictions.
- Performed data preprocessing, feature engineering, and model evaluation to optimize prediction accuracy.

Library Management System

PHP, MySQL, Bootstrap, JavaScript

GitHub: github.com/ssanthosh49077-sys/Library_Management

- Designed and developed a web-based Library Management System using **PHP, MySQL, Bootstrap, HTML, CSS, and JavaScript**.
- Implemented secure **Admin** and **Student** authentication with role-based access.
- Built complete **CRUD operations** for managing books and students, including Edit, Soft Delete, Restore, and Permanent Delete features.
- Developed book issue/return functionality with automatic inventory updates, transaction tracking, and PDF report generation using **FPDF**.

EDUCATION

B.Sc. Computer Science – V.H.N.S.N. College, Virudhunagar
Madurai Kamaraj University

2023 – 2026

HSC – 12th Standard – Govt. Higher Secondary School, Soolakkarai
Tamil Nadu State Board | Score: 78.17%

March 2023

CERTIFICATIONS & ACHIEVEMENTS

- Programming in Java – NPTEL | Elite Certificate | Score: 86/100 | Verify: nptel.ac.in
- IBM SkillsBuild – Data Analytics | Grade A | ICT Academy (2025)
- AI & ML Webinar – 30 Hours Completion Certificate (2025)
- IoT Hands-on Workshop – DIGITECH Forum (2026)
- Workshop on Network Simulation – V.H.N.S.N. College (2025)
- National Level Codathon – ZYNOVA 2K26 | Consolation Prize
- State & National Level Technical Symposium Participant
- English Typewriting – Junior Grade | First Class with Distinction
- English Typewriting – Senior Grade | Second Class
